MILAM COUNTY ARES NEWS

MILAM NETS

The **MARC Net** meets on Monday night at 8:00 p.m. The frequency is 146.760 Mhz tone 123.0 Khz. On the LAST Monday of each month the MARC Net will be on the **Davilla repeater:** 147.000 Mhz. Tone 123.0 khz.
Milam ARES 147.020 Mhz. Tone 123.0 kHz meets Thursday at 7:00 p.m.

I, STUART WOLFE – KF5NIX, the new Emergency Coordinator for Milam County would like to tell you some things about myself. First off I am looking forward to making Milam County ARES the best it can be. I was first licensed in 2011, then quickly obtained my Amateur Extra, was part of a small group who helped found the Milam Amateur Radio Club – KG5DUO in Rockdale. Was asked by our ARRL Section Manager to take over the ARRL STX Affiliated Club Coordinator position, which I gladly did, and am currently still doing. I am also a Volunteer Examiner for ARRL, as well as W5YI. And lastly, I am the current President of the Milam ARC – KG5DUO in Rockdale.

I see great things happening in the future for all of Milam County in the amateur radio field. We have already worked with an individual to get the radio in the Rockdale Hospital replaced, so they will be able to use it in the monthly drills, as well as actual emergencies. I also look forward to Milam County ARES to having/participating in drills in the near future too.

As the EC for Milam County, not only am I responsible for the weekly nets, but I am also held accountable for the number of members we have registered on our website for the actual members that can be called upon for an actual emergency. There is a place for you to list all of your accomplishments, courses passed, contact info and equipment (no worries, all info is secure). I look forward to seeing all the requests to join from all who receive the newsletters. Simply click on the Register New Member link and follow the instructions. The website is: http://www.arrlstx.org/vault_area/vault_gateway/site_gateway/vault_gateway.php

There is an ARES workbook that is on the above site that will come in handy. The workbook will also be put on the Milam County ARES website: <http://milamcountvares.weebly.com/>.

We also have a Milam County ARES Facebook page, an email address: milamcountvares@gmail.com, with more to come! This is an exciting time in Amateur Radio, we now have more licensed hams than ever before, with even more and new exciting things around each corner. And I look forward to working with each and every one of you in the future. If you would like to help out in any way please do not hesitate to contact me. My email address is: amadeus8558@gmail.com or give me a call at: 512-660-9954.

I look forward to seeing some of you at the Davilla Health/Safety fair on June 17th at the Davilla Community Center, starting at 10:00 A.M. and running till 3:00 P.M. Thank you, Stuart Wolfe – KF5NIX – EC Milam County

Milam ARES 2 Meter Data Repeater 145.030 Mhz

This repeater is a simplex repeater with store and resend software in the modem at the transceiver. This call sign is CAM-RLY. The repeater is on the Milam County Communication Tower and uses the same antenna as the 147.020 repeater. That antenna is a db224 with 6db gain. It is approximately 150 feet AGL.
